## SUMMARY

Medical Doctor and Master of Management candidate with a strong track record in translating complex clinical data into actionable business strategies. Currently serving as a Medical Scientific expert at a leading pharmaceutical firm, specializing in market analysis, stakeholder engagement, and product enablement. Proven ability to lead cross-functional initiatives across Marketing, Sales, and Medical departments to drive product adoption and market share. Passionate about leveraging data-driven insights and AI productivity tools to optimize product lifecycles in the Healthcare, Tech, and Pharma sectors

---

## WORK EXPERIENCE

### Medical Scientific & Product Trainer - PT Novell Pharmaceutical Laboratories

May 2024 - Now

- Stakeholder Management: Serve as the primary scientific liaison for Key Opinion Leaders (KOLs) and clinicians across high-impact therapeutic areas, including Oncology, Renal, and Pediatrics
- Product Strategy: Collaborate with Marketing and Sales to architect scientific narratives and value propositions that differentiate products in competitive markets
- Sales Enablement: Developed comprehensive GTM (Go-To-Market) assets, including core decks, objection-handling frameworks, and evidence summaries to standardize field execution
- Market Intelligence: Execute rigorous market and competitor mapping (positioning and claim analysis) to identify growth opportunities and refine campaign messaging
- Regulatory Compliance: Ensure all scientific communications and product claims adhere to strict industry regulations and ethical standards

### Company Doctor & Administration - PT Sator Delta Lucktrus

February 2024 - Mei 2024

- Managed comprehensive company health programs, including pre-employment and routine medical check-ups (MCU), first aid provision, and industrial hygiene compliance to ensure employee wellness and safety
- Handled core administrative tasks, including scheduling, documentation filing, and communication coordination between export-import logistics, HR, and finance departments
- Assisted the finance team with preliminary accounting duties, such as processing petty cash, verifying expense reports, and reconciling minor operational costs relevant to the medical and administrative budget

### General Practitioner - RS Hermina Tangerang

June 2023 - February 2024

- Managed emergency triage and stabilization; collaborated with multidisciplinary teams for continuity of care.
- Providing first aid and basic to advanced resuscitation (BLS and ACLS)
- Conducting daily rounds and examinations of inpatients who have not yet been handled or are under GP supervision
- Providing initial management before the patient is taken over by the specialist DPJP (Doctor in Charge of Service)
- Providing services in the Hospital Polyclinic (for non-specialist cases or general check-ups)
- Performing medical procedures within the GP's authority in the hospital
- Strengthened decision-making under pressure, structured clinical reasoning, and stakeholder communication.

### General Practitioner - Puskesmas Jatiuwung

January 2023 - June 2023

- Diagnosing and treating common diseases at the General Polyclinic/Outpatient Unit
- Conducting routine health checks, formulating and dispensing drug prescriptions
- Responsible for or involved in Essential Health Programs (e.g., Maternal and Child Health/MCH, Nutrition, Communicable Disease Control/P2M)
- Conducting health promotion and fostering in the working area (Posyandu, schools, and villages)

### General Practitioner - Klinik Berkah Cengkareng

October 2022 - January 2023

- Conducting anamnesis, physical examinations, and diagnosing common acute and chronic illnesses that do not require specialist intervention or hospitalization
  - Performing simple medical procedures (minor wound suturing)
  - Formulating and dispensing drug prescriptions in accordance with standards and ethics
-
